

# Under The Weather

K T Tunstall

There are chords with scary names in this song - usually the more complicated the chord name the easier it is to play

Intro: Play twice

Under this national rain cloud

I'm getting soaked to the skin

Trying to find my umbrella

But I don't know where to begin

And its simply irrational weather

Can't even hear myself think

Constantly bailing out water

But still feel like I'm gonna sink

Chorus 1:

'Coz I'm under the weather, just like the world

So sorry for being so bold

When I turn out the light, you're out of sight

Although I know that I'm not alone

Feels like home
